SUMMARY

Full-Stack Software Engineer with 4+ years building and shipping production web and mobile applications used by thousands of users across Australia, the US and Europe. Delivered 7 products end-to-end at Kcube.ai — enterprise workforce portals, AI-powered SaaS, healthcare platforms and cross-platform mobile apps — using React, Angular, TypeScript, FastAPI and NestJS.

EXPERIENCE

Full-Stack Web Developer — LS-LART

2026-06 – Present | Remote

- Building and extending features on a PHP/MySQL data collection and analytics platform
- Contributing to a Python/FastAPI AI assistant that lets non-technical users query business data in natural language
- Working on an Angular + Firebase admin platform supporting print-manufacturing workflows

Software Engineer — Kcube.ai

2022-01 – 2026-06 | Lahore, Pakistan (remote-friendly)

- Built and shipped 7 production web and mobile applications end-to-end using Angular, React, Next.js, React Native, NestJS and FastAPI
- Integrated third-party services including Stripe, DocuSign, QuickBooks, Azure (B2C, Blob Storage), AWS (S3, SES) and SendGrid across multiple client products
- Collaborated with cross-functional teams and clients on requirements, architecture, code reviews and agile sprint delivery
- Built backend services with NestJS and FastAPI on PostgreSQL — REST and real-time WebSocket APIs with role-based access control and JWT/OAuth 2.0 authentication
- Developed reusable component libraries following atomic design principles, reducing feature development time by 30%
- Optimized application performance through code splitting, lazy loading and bundle optimization, cutting initial load time by 50%
- Implemented secure authentication and authorization flows using Azure B2C and OAuth 2.0 with role-based access control
- Architected state management layer using RxJS (Angular) and TanStack Query (React), enabling efficient data fetching across complex workflows
- Mentored junior developers through code reviews and established frontend best practices across the team

SELECTED PROJECTS

ALA Portals & Mobile App — Agri Labour Australia

Enterprise workforce management platform for Australia's largest agricultural labour hire company — candidate lifecycle, payroll, compliance and training for thousands of field workers.

- Architected the modular Angular web portal and React Native mobile app covering candidate management, payroll, job tracking and compliance workflows
- Integrated DocuSign API and Azure Blob Storage for end-to-end digital document workflows — signature collection, secure storage and versioning

Hailo — Event Management Platform — Kcube.ai

Enterprise SaaS streamlining end-to-end event operations — projects, teams, finance, procurement, HR/leave and payroll — with real-time collaboration across multi-country teams.

- Built the NestJS + TypeORM + PostgreSQL backend with granular role-based access control, JWT auth and two-factor authentication (TOTP)
- Implemented real-time notifications and presence with Socket.IO + Redis, and background jobs (email, digests, exports) via BullMQ

APR System — Kcube.ai

AI-powered legal case management SaaS with RAG-based document chat, Stripe subscription billing, digital signing and multi-language support.

- Built a full-stack application with a React 19 frontend and FastAPI backend, implementing AI chat using RAG for intelligent legal document retrieval
- Developed a Stripe subscription system with tiered plans, feature toggles, OAuth (Google, Meta, Microsoft) and two-factor authentication

ALA Mobile App — Agri Labour Australia

Cross-platform mobile app giving agricultural workers access to payroll, jobs and compliance data — published on the Apple App Store and Google Play.

- Single-handedly developed and published a cross-platform React Native app to both the Apple App Store and Google Play
- Built the data layer with TanStack Query for fast API calls, caching and real-time sync of payroll, job and compliance data

CoreMemories AI — Kcube.ai

AI-powered personal memory platform that captures, organises and resurfaces memories through intelligent prompts and personality-driven interactions. Shipped on web and Google Play.

- Built the full frontend in React and TypeScript with TanStack Query for optimised API caching across sessions
- Developed an interactive onboarding flow with personality quizzes, voice recording and scheduling — driving engagement from first launch

Heides Patient Portal — Kcube.ai

Healthcare platform for patient management, appointments, prescriptions, document handling and secure patient-provider messaging.

- Built the React web frontend with TanStack Router and Chakra UI for patient dashboard and appointment management
- Developed the React Native mobile app with Expo for iOS and Android including push notifications

SKILLS

Frontend	React, Angular, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SCSS, Material UI, Chakra UI, shadcn/ui, Angular Material
Mobile	React Native, Expo, EAS Build, Native module integration, Push notifications, App Store deployment, Google Play deployment
Backend	FastAPI, Python, NestJS, Node.js, Express.js, Django, PHP, REST APIs, WebSockets, Socket.IO, BullMQ, TypeORM, SQLAlchemy, Alembic migrations, Puppeteer
Databases	PostgreSQL, MongoDB, SQL Server, MySQL, Redis, pgvector
State & Data	RxJS, TanStack Query, TanStack Router, Redux
Cloud & DevOps	Azure (B2C, AD, Blob Storage, App Services, DevOps), AWS (S3, SES, Lambda), Firebase, Docker, Vercel, Railway, CI/CD
AI	OpenAI API, Google Gemini, RAG pipelines, pgvector, ElevenLabs TTS
Auth & Payments	JWT, OAuth 2.0, Azure MSAL, PKCE, Passport, 2FA/TOTP, Azure B2C, Stripe
Integrations	Stripe, DocuSign, QuickBooks, PostHog, Sentry, SendGrid, Calendly, Apple Sign-In, Google OAuth, Azure MSAL, Remotion, FFmpeg, NikoHealth
Testing & Tools	Jest, Vitest, Postman, Git, GitHub, Jira, Azure DevOps
Practices	Atomic design, Component libraries, Code splitting, RBAC, OAuth 2.0, JWT, 2FA/TOTP, i18n, Excel import/export, PDF generation, Code review, Mentoring, Agile/Scrum

EDUCATION

BS Software Engineering — University of Azad Jammu & Kashmir, Muzaffarabad, Azad Kashmir, Pakistan

AWARDS

Employee of the Quarter (2x) — Kcube.ai (Q3 2022 and Q2 2025)
